

Statistics

Get detailed website analytics delivered in a way that is easy to understand.

Understanding what your visitors are looking for and how they behave can help you to reduce your bounce rate, improve the conversion rate of new customers on your website, and identify any problem areas that require your immediate attention.

Monsido's Statistics module ensures that you and your team are provided with the crucial information needed to optimize your site's performance and better understand how visitors experience your website.

User Friendly Website Analytics

Our intuitive dashboard is easy to use and presents data in a way that even non-technical team members can understand. Learn how visitors use your site and make targeted adjustments to improve their experience.

Track Visits Across Your Entire Website

Track the number of visits to your web pages and immediately see which are performing well and which may require attention. Instantly identify your most popular and least popular pages and discover any pages that have received no visits.

Get Insightful Stats on Key Areas

Identify your main traffic sources and better understand where your visitors are coming from. Pinpoint the keywords used to search for your site and collect information on your visitors' locations, languages, organizations, devices, browsers, operating systems, screen resolutions, and more.

Track User Behavior

Get vital insights about your visitor bounce rates and user behavior, along with clear data to analyze your site's performance.

Export Analytics Data to CSV

Reports can be exported to CSV, allowing you to share vital insights and information quickly and easily.
