Web Accessibility

The EU Web Accessibility Directive: Are You Ready for September the 23rd?

All websites published before September 23rd, 2018 must comply with the EU Web Accessibility Directive by September the 23rd of this year. Meeting these requirements can appear daunting at first, but don't worry, we've got you covered!

Taking the following steps will help towards ensuring that your website is complying with the Directive:

- Educate Your Organization**
Familiarize yourself and your organization with the basics of web accessibility and why it is important as a foundation for your future efforts.
- Audit Your Website**
Get a clear idea of how your website is currently performing in terms of accessibility and identify barriers for people with disabilities.
- Provide a Feedback Mechanism**
Make it possible for your visitors to report accessibility failures and request missing or inaccessible content.
- Add an Accessibility Statement**
Show visitors that you care about accessibility and social responsibility by providing information about the accessibility of your content. Create a statement quickly and easily using [Monsido's Accessibility Statement Generator](#).
- Provide a Link to the Enforcement Procedure**
The Directive requires that a link is in place that visitors can interact with should they be dissatisfied following their notification of accessibility issues.
- Monitor Your Progress**
Remember, achieving web accessibility is not a one-off task but an ongoing process, so be sure to review your content and processes regularly and to keep track of your progress. This can be made far easier by using an automated solution, such as [Monsido's Accessibility Module](#).

About Monsido

Monsido is a fast-growing software company founded in 2014 that provides a one-stop web governance solution designed to give website visitors a superior browsing experience. Our time-saving auditing tool provides accurate and insightful information that helps organizations work with confidence to identify accessibility and quality assurance issues. This enables them to optimize their online presence and ensure compliance with legal requirements. Monsido has offices in the United States, United Kingdom, Australia, and Denmark.
